

ABDULLAHI DANGANA BAIWA

Cybersecurity Student • Web Developer • Networking & Technical Support

Bida, Niger State, Nigeria • 08125766820 • baiwaabdullahi81@gmail.com

PROFESSIONAL PROFILE

Technology-focused cybersecurity student and hands-on digital problem solver with practical interests across cybersecurity, ethical hacking, web development, networking, Linux and systems, UI/UX design, technical support, vulnerability scanning and application troubleshooting. I build practical software solutions while applying security-minded thinking to digital systems.

CORE SKILLS

Cybersecurity & Defensive Security	Web Development	Networking & Troubleshooting
Ethical Hacking & Vulnerability Scanning	Python Programming	Linux / Kali Linux
UI/UX Design	Technical Support & Bug Fixing	Problem Solving & Critical Thinking

PROJECT EXPERIENCE

FMC SMARTFLOW — Hospital Operations Intelligence System

A lightweight hospital operations intelligence system designed for Federal Medical Centre (FMC) Bida. It focuses on patient-flow visibility, medical-record movement tracking and bottleneck detection rather than replacing a full hospital-management/EMR system.

- Patient-flow tracking across registration, records, clinic/doctor, investigations, review and pharmacy/discharge.
- Timestamp-based waiting-time visibility and queue monitoring.
- Medical-record movement tracking with physical-folder movement history and QR-code workflow.
- Bottleneck and delayed-process alerts using practical operational rules.
- Technology stack: FastAPI, Python, React/Vite and PostgreSQL.

PAYGUARD — Security-Focused Digital Project

An ongoing security-focused project currently under development. Project details and deployment information will be added as development progresses.

EDUCATION

Edusoko University — Cybersecurity

Cybersecurity studies with continued practical learning in systems, networking, security and software development.

TRAINING & CERTIFICATIONS

- Udemy — Technology and cybersecurity-related courses and certificates.
- Federal University of Technology Minna (FUT Minna) — Networking training/certificate.

Specific certificate titles, dates and credential links can be added when available.

PRACTICAL EXPERIENCE

Hands-on Technology & Cybersecurity Practice — Approx. 2 Years

Practical learning and project work across web development, cybersecurity, networking, Linux and systems, troubleshooting, vulnerability scanning, bug fixing and digital solution development.

PROFESSIONAL STRENGTHS

Problem Solving • Technical Troubleshooting • Critical Thinking • Communication • Teamwork • Adaptability • Continuous Learning
